Dharwad, Karnataka

EDUCATION

Vellore Institute of Technology, Bhopal

Bachelor of Technology in Computer Science and Engineering

2023 - 2027

CGPA: 8.75

SKILLS

- **Languages:** Python, JavaScript, SQL
- **Frameworks:** Node.js, Express.js, Prisma, Zod
- **Databases:** MySQL, MongoDB, Redis
- **Cloud & DevOps:** AWS, Linux, Git/GitHub, Docker

EXPERIENCE

Backend Engineer

Advan Drive Technology, New Delhi

Feb 2026 - Aug 2026

(6 months - Hybrid)

- Owned end-to-end deployment of a **4-service platform** (Next.js, FastAPI, Celery worker, Nginx) on **Oracle Cloud Infrastructure**, writing per-service **Dockerfiles**, separate local and production **Docker Compose** configs, and an **Nginx reverse proxy** with path-based routing.
- Built **20+ Zod-validated** financial disclosure modules and **5 financial reporting pages** (Balance Sheet, P&L, Cash Flow, Notes to Accounts, Ratio Analysis) using **Next.js server actions**, querying a **PostgreSQL** schema through **Prisma ORM**.

PROJECTS

Super Finance | [GitHub](#) | [Demo](#)

June 2026

- Built a **multi-tenant SaaS platform** that generates SME IPO draft prospectuses, with **Clerk authentication**, organization-based access control, and a **55-rule compliance engine** derived from **8 real SEBI-filed prospectuses** that auto-flags eligibility and consistency gaps.
- Designed a **document engine** that renders all **37 SEBI-mandated sections** into a **150+ page** draft offer document from a single AST-based model shared by the live preview and Word export, plus **22 risk archetypes** that auto-flag company-specific risk factors.

Zenith | [GitHub](#) | [Demo](#)

Dec 2025

- Built a deployment platform as **3 independently deployable Node.js services** (upload API, build worker, file server) in a **monorepo** that builds any GitHub repo and serves each project on its own subdomain with SPA fallback routing, storing source and build output on **AWS S3**.
- Designed an **async build pipeline** on a **Redis queue** decoupling API responses while builds run in the background, letting build workers **scale horizontally**; containerized all 3 services with **Docker Compose**.

Multi-Tier Infrastructure System | [GitHub](#) | [Demo](#)

Sep 2025

- Architected and provisioned a **3-tier AWS infrastructure** across **2 Availability Zones**, with EC2 instances in an **Auto Scaling Group** behind an **Application Load Balancer** and a managed **RDS** database, designed for high availability.
- Built a custom **VPC** with NAT Gateways and Security Groups to control traffic between tiers, and configured **CloudWatch** monitoring across all resources to track infrastructure health.

CERTIFICATIONS

- **AWS Certified: Cloud Practitioner** - Score: **865/1000**. June 2026
- **100 Days of Code: Python Bootcamp** - Udemy, Grade: **82.19%**. Sep 2024
- **Full-Stack Web Development Bootcamp** - Udemy, Grade: **81.63%**. Feb 2024

ACHIEVEMENTS

- **Runner-up** position in **HackByte 3.0** (Wikimedia Track) at IIIT Jabalpur, ranking **2nd out of 110** participating teams.
- Ranked among the **Top 2,000 Contributors** out of **30,000+ participants** in GirlScript Summer of Code (GSSoC) 2024 for open-source contributions.

EXTRACURRICULAR ACTIVITIES

- **Technical Team Lead** of Model United Nations Chapter, organized **3+ MUN events** with **280+ participants**.
